

JOB TITLE: STRUCTURAL INTERN DESIGNER

Structural Focus has a reputation of providing focused client care. Our team is given the opportunity to learn and practice all aspects of engineering, and it is our excellent staff that provides the help and guidance along the way. We encourage questions and thoughtful discussion. And in our collegial atmosphere, you will receive the attention you need and be given the responsibility that you desire. Excellent design, successful leadership and management, and great communication are the skills that set our employees apart from other firms. Here you will find the resources you need to grow in the profession.

A Structural Intern Designer at Structural Focus provides technical services on projects while continuing with personal and educational growth.

REQUIRED QUALIFICATIONS

1. Bachelor's degree in Civil or Structural Engineering.
2. Currently enrolled in a Master's program specializing in Structural Engineering or planning to enroll in the near future.
3. Completed design courses for various types of materials such as steel, concrete, masonry, and wood.
4. Ability to attend site visits along with Senior Engineers. Requires proper attire and may require climbing ladders or scaffolding, entering areas with limited egress, confined spaces with limited height/width, or walking long distances.

PREFERRED QUALIFICATIONS AND EXPECTATIONS

1. Minimum grade point average of 3.5.
2. Active participation in professional activities related to structural or earthquake engineering.
3. Structural engineering technical experience, or research related to structural engineering.

OUR FIRM

Structural Focus is a structural engineering consulting firm specializing in the design of complex and innovative buildings. Since Structural Focus' 2001 inception, the firm has designed several million square feet of new structures and rehabilitated hundreds of existing buildings, including numerous historic projects, dozens of which are on the National Register of Historic Places.

The future of Structural Focus lays with our employees. We seek highly qualified and motivated individuals to continue our success. However, it is our responsibility to provide continuous training to our employees, and with a nearly 1:1 ratio of licensed structural engineers to other engineering staff, Structural Focus has an excellent environment to grow in and be mentored by experienced professionals.
